

Look who's reading Design Edge

"I truly hope that your publication grows and here's why... The importance of Canadians to have their own identity has been a constant struggle, but I think that your publication is a great step in that direction, especially when it comes to design. We are influenced by the Europeans and the Americans. How about inspiring each other as Canadians? Let's not have our talent take a back seat. I also like how you cover topics large and small, because the small things are sometimes the most inspiring. Even though I work in Toronto, it's not the only place design lives in Canada. Please keep up the good work and I look forward to learning more about our Canadian design community."
